

Caladenia: latifolia, patersonii, rigida.

Calanthe: cardioglossa, ceciliae, crumenata, discolor, flava, furcata, limatodes, masuca, reflexa, regnieri, rósea, sieboldii, striata, triplicata, veratrifolia, vestita, williamsii.

Calopogon: pallidus, pulchellus, tuberosus.

Calypso: bulbosa.

Camaridium: coccineum.

Campylocentrum: aciculatum, amazonicum, aromaticum, brachucarpum, burchellii, crassirhizum, densiflorum, fasciola, gracile, hirtellum, intermedium, iglesiasii, lansbergii, linearifolium, neglectum, ornithorhynchum, pachyrhizum, parahubunense, pauloense, pernambucense, poeppigii, robustum, sellowii, spannagelli, tenue, sullivanii, wawraeorganensis, ulei, allastachyum, pubirhachys, huebneri.

Capanemia: adelaidae, angustilabia, australis, ensata, carinata, fluminensis, gehrtii, micromera, paranaensis, riograndensis, spathuliglossa, superflua, thereziae.

Catasetum: aculeatum, albovirens, alburquerquei, arietinum, ariquenense, aripuanense, atratum, barbatum, blackii, bicallosum, bifidum, boyi, brichitae, bungerothii, callosum, carrenhianum, carolinianum, cassideum, cernnum, ciliatum, cristatum, complanatum, collare, costatum, cucullatum, confusum, cirrhaeoides, cristatum, claveribgi, deltóides, deltoideum denticulatum, discolor, dupliciscutulatum, espansum, ferox, fimbriatum, franchinianum, fuchsii, galeritum, gardineri, garnettianum, gladiatorium, globiflorum, gnomus, hookeri, incurvum, integerrimum, juruenenses, kleberianum, kraenzlenianum, labiatum, lanceatum, lanciferum, longifolium, longipes, luridum, maculatum, macrocarpum, mattogrossense, maranhense, mattasianum, meeae, micranthum, microglossum, mojuense, multifidum, ochraceum, oerstedii, ornithoides, osculatum, palmerinhense, parguazense, pileatum, planiceps, pulchrum, punctatum, purum, quadridens, reichenbachianum, regnellii, rickteri, rigidum, rivularium, rodigasianum, rolfeanum, rondonense, rooiiveltianum, saccatum, sanguineum, seccoii, semicirculatum, spitzii, stenoglossum, taguariense, tenebrosum, tigrinum, toquariensis, trindetatum, triodon, tucuruense, trulla, uncatum, vinaceum, warscewiczii.

Cattleya: aclandiae, amaliae, amethystoglossa, araguaiensis, aurantiaca, aurea, bicolor, bicornutum, bowringiana, citrina, dolosa, dormaniana, dowiana, eldorado, elongata, frasquita, forbesii, gaskelliana, gigas, granulosa, guatemalensis, guttata, harrisoniae, intermedia, iricolor, jenmanii, karwinskii, kerri, labiata, lawrenceana, leopoldii, lindenii, loddigesii, lueddemanniana, luteola, máxima, mendelii, mossiae, nobilior, nobilior, percivaliana, porphyroglossa, quadricolor, rex, speciosissima, schilleriana, schroderae, scholfieldiana, skinneri, tenuis, trianaei, velutina, venosa, violacea, walkeriana, warneri, warscewiczii.

Caularthron: bicornutum.

Centroglossa: castellensis, macroceras, tripollinica.

Ceratocentron: fessellii.

Ceratochilus: biglandulosus, oculatus, philippinense.

Ceratostylis: rubra.

Cephalanthera: damasonium, longifolia, rubra.

Cirrhaea: dependens, loddigessii.

Cirrhopetalum: eberhardtii, dentiferum, flabellovenaris, longissimum, makoyanum, ornatissimum, rothschildianum.

Chamaeangis: hildebrandeii, sarcophylla, vesicata.

Chaubardia: surinaemensis.

Chalbardiella: pacuarensis.

Cheirostylis: serpens.

Cheiradenia: imthurnii.

Chelostele: sulphurea, chelone.

Chiloschista: lunata, lunifera, usneoides, viridiflava.

Christensonella: pumila, minuta.

Christensonia: vietnamica.

Chondrorhyncha: amabilis, chestertonii, discolor, embreei, escobariana, fimbriata, flaveola.

Chondroscaphe: amabilis, chestertonii, discolor, embreei, escobariana, fimbriata, flaveola.

Chysis: aurea, bractescens, bruennowiana, costaricesis.

Chytroglossa: aurata, marileoniae, paulensis.

Chondrorhyncha: discolor.

Chlorada: barbata, crispa, cristata, cylindrostachya, disoides.

Chloraea: barbata, bletioides, chica, galeata, gavilu, heteroglossa, longipétala, magellanica, multiflora, virescens.

Cleistes: grandiflora, rosea, tenuis, brasiliensis, metallina, revoluta.

Cleisostoma: tenuifolia.

Clowesia: amazônica, rósea, russeliana, thylaciochilim, warscewiczii.

Cochleanthes: amazônica, aromatica, candida, discolor, flabelliformis, marginata, reichenbachiana, wailesiana.

Cochlioda: beyrodtiana, noezliana, rósea, sanguinea.

Coelia: bauerana, bella, macrostachya, triptera.

Coeloglossum: bracteatum, viride.

Coelogyne: asperata, barbata, bilamellata, bimaçulata, confusa, chloropitera, corymbosa, cristata, cymbidioides, dayana, fimbriata, flaccida, flexuosa, glandulosa, huettneriana, intermedia, lawrenceana, longifoliae, massangeana, modesta, monilirachis, mooreana, nítida, ochracea, ovalis, pandurata, parishii, prasina, pulverula, punctulata, rhisomotosa, rochussenii, rumpleri, speciosa, salmonicolor, tomentosa, vagans xyrekes.

Colax : jugosus.

Comparettia: coccínea, falcata, ígnea, macroplectron, speciosa.

Constantia: cipoensis, rupestris.

Coralloorhiza: maculata, trifida.

Coryanthes: albertinae, biflora, boyi, elegantium, elegantíssima, elianae, flava, horichii, hunteriana, macrantha, miuaensis, punctata, speciosa, vasquezii.

Corybas: carinatus, despectans, diemenicus, fornicatus, himalaicus, hispidus, holtumii, karoensis, limpidus, pictus, piliferus, puberulus, recurvus, royenii, stenotribonas, umbrosus, villosus.

Cotylabium: lutzii.

Cranichis: candida.

Crocodeilanthé: velaticaulis.

Cryptarrhena: guatemalensis, kegelii.

Cryptocentrum: dunstervilleorum ,gracillimum, standleyi.

Cryptophoranthus: purpureum, schenckii.

Cryptochilus: sanguineus.

Cryptopus: dissectus, elatus.

Cuitlauzina: candida.

Cynaorchis: arundinae.

Cyclopogon: gardneri, iguapensis, lindleyanus, torus, variegatus.

Cycnoches: barthiorum, cooperi, chlorochilum, egertonianum, haagii, herrenhusanum, lehmannii, loddigesii, maculatum, pentadactylum, peruvianum, thurstoniorum ou thurstonorum, pentadactylum, suarezii, warscewizii.

Cymbidiella: pardalina, rhodochila, zhodochila.

Cymbidium: abweich, aestivum, alexette, aloifolium, bicolor, caulescens, canaliculatum, changnigense, chloranthum, concinnum, corniculatum, cyperifolium, dayanum defoliatum, devonianum, eburneum, elegans, ensifolium, equitans, erythrostylum, faberi, floribundum, finlaysonianum, giganteum, goeringii, grandiflorum, hookerianum, hoosai, iansonii, insigne, ionosmum, kanran, lancifolium, lowianum, Imacrorhizon, madidum, mastersii, monroianum, multiradicatum, nanulum, niveo-marginatum, ochroleucum, parishii, paucifolium, pumilum, quibeense, quinquelobum, rhizomatosum, sanderae, sichuanicum, sinense, soshin, suave, tigrinum, tracyanum, tortisepalum, virescens, wenshanense.

Cynorkis: loddigesii, fastigeata.

Cypripedium: arietinum, acaule, arcuata, bardolphianum, bulbosum, calceolus, calcicolum, californicum, candidum, cannartianum, cordigerum, debile, flavum, fasciolatum, formosanum, froschii, guttatum, hirsutum, henryi, humile, irapeanum, japonicum, macranthum, margaritaceum, palangshanense, parviflorum, passerinum, plectrochilum, pubescens, reginae, smithii, kentuckiense, wardii, weberbauerianum.

Cyrtopodium: andersonii, cristatum, eugenii, flavum, gigas, guatemalensis, holstii, paranense, paranaense, parviflorum, poecilum, polyphyllum, punctatum, saint-legerianum.

Cyrtorchis: chailluana, ringens.

Cyrtochilum: microchilum.
